

The Sequoia

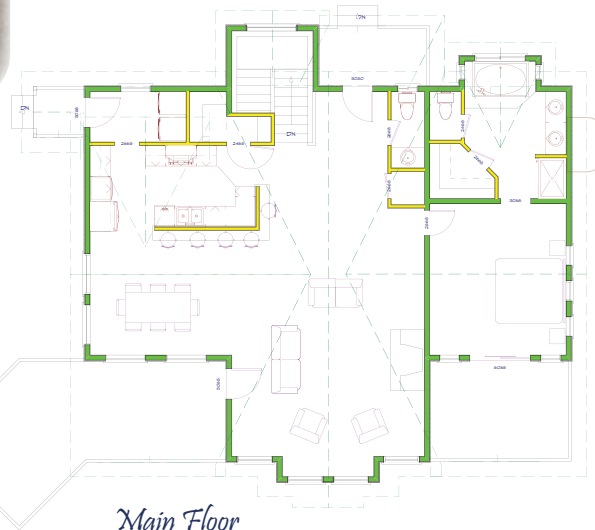

This home is designed to meet the standards of today's homebuyers when it comes to architectural details and finishes. The home features a nice master suite on the main level with jetted tub, walk-in closet, and generous slate shower. The great room is open with large spaces for entertaining or relaxing. The basement has two bedrooms, a bathroom, and a family room, but there is also a flex space for a garage, home theater, game room, larger family room or more bedrooms. Enjoy the outdoors with a large open deck for summer, and covered decks for winter and fall.
